Wood Fireplaces

Castlewood shown with glass doors, standard stainless steel mesh, traditional molded brick panels and Outdoor Fireside Grand Oak gas log set.

Castlewood Outdoor Wood Fireplace

The Castlewood turns any outdoor space into a warm and inviting living space. The high opening of the Castlewood allows a perfect view of the beautiful wood burning fire highlighted by the textured brick appearance of the refractory. The clean, simple lines of the Castlewood along with the optional glass doors complement any outdoor space. Extend your summer season and spend more time with friends and family around the Castlewood.

- 42" wide x 38" high viewing area
- 3 easy-install refractory panels
 - Textured brick look
 - Gray mortar lines for grout or no grout option
 - Traditional and herringbone
- 2 ft. transitional piece
- Grate
- 2 cooling air hoods
- Stainless steel screens

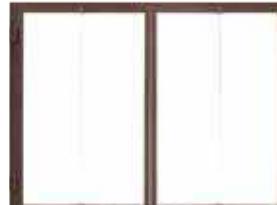

Optional Features

- Glass doors – bronze
- Outdoor Fireside Grand Oak log set
- Mortar

Optional Features

- Beautiful, stainless steel screen doors in bronze finish. No more glass to clean or break.
- RC100 or RC200 Control

Carolina Doors

Control Options

The IntelliFire Plus Ignition System is an "intelligent" control system providing energy conservation and the comfort of a roaring fire...all at your fingertips! IntelliFire Plus features intermittent-pilot-ignition (IPI) allowing you to conserve fuel and money when the fireplace is not in use. Our family of IntelliFire Plus Wireless Controls provides stylish and ergonomic controls with the features and benefits homeowners desire.

IntelliFire Plus RC200* is specifically designed for use with our new IntelliFire Plus ignition system. It is easy-to-use, stylish and ergonomic in design. And, since it is a wireless control, it has the flexibility for wall placement in the room, or use as a remote only.

Features: Auto Battery Backup, Pilot Activation, On/Off, 5-Step Flame Height, Fan Speed (not available on this unit), Child Lock

IntelliFire Plus RC100* is designed specially for fireplaces with IntelliFire Plus, our state-of-the-art intermittent pilot ignition system.

Features: On/Off

*Must be used under weather resistant cover

Right: Twilight II (Indoor Side) shown with Firescreen Front and Carriage Hill companions in black.

Inset: Twilight II (Outdoor Side) shown with standard exterior front.

Twilight II Indoor/Outdoor Gas Fireplace

The Twilight is the world's first indoor/outdoor see-thru fireplace. Add the warmth and beauty of a clean-burning fireplace to two living spaces at once. Unique see-through design simultaneously functions inside and out. Innovative design meets both gas fireplace and window standards.

- 38,000 Btu/Hr Input (NG)
- Weather-tested/hurricane-rated
- Sealed combustion chamber
- No additional venting required
- Black exterior front (ships with fireplace)
- IntelliFire Ignition System

Gas Fireplaces & Gas Firepits

Dakota Outdoor Gas Fireplace

Just turn it on and turn an ordinary deck or patio into an extraordinary entertainment space. Dakota—the world's first outdoor gas fireplace—combines all the ease and convenience of a gas fireplace with weatherproof, stainless steel construction. Customize it to match your home.

- IntelliFire™ ignition system
- Complete gas fireplace system—LP or Natural
- Smoke-free, no messy ashes
- Realistic logs and refractory
- Decorative front grill vent eliminates chimney
- Glass doors add control in windy conditions
- Approved for use in screened porches, gazebos and lanais†
- UL listed
- 60,000 Btu/Hour Input (NG), 53,000 (LP)
- Patented technology

†See next page for important installation requirements

Dakota shown with decorative front and custom finishing.

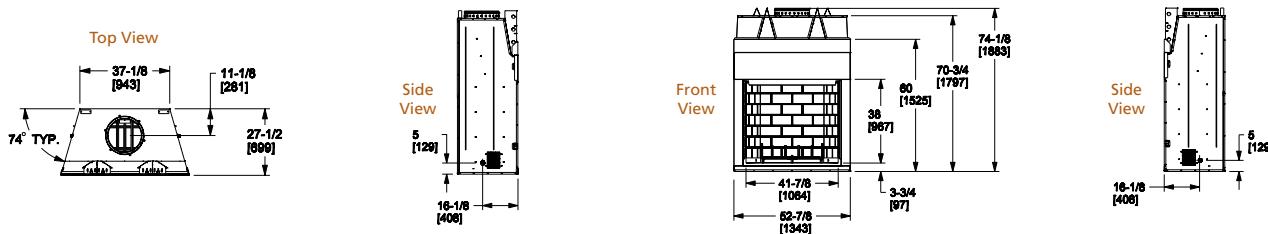

Patio Campfire Gas Firepit

The Patio Campfire offers a convenient and simple alternative to building a campfire. Attach it to a standard LP tank, such as the one used on your gas grill, or run a natural gas line directly to the unit.

- Our gas Patio Campfire gives you the ultimate in convenience—no cleaning, no chopping—just turn it on and enjoy.
- Completely finished with Mesa Base and gas fire pit.
- Weatherproof year-round

†The Carolina is approved as a standalone unit or can be built into an outside wall. It may be installed in screened porches and lanais that meet these minimum requirements: Minimum porch area - 96 sq ft, Minimum ceiling ht. - 82 in. A minimum of two walls can be screened but must be open to outside ventilation. Minimum requirements are: Minimum screen area - 64 sq ft, Minimum screen top height - 80 in. If installed within a wall, you must: Provide access to the gas controls, Slope outdoor floor (and hearth) away from fireplace. Flash the perimeter of the fireplace, corners and the fireplace face in a manner consistent with regional practices as required to prevent water penetration around the fireplace or manage water that may penetrate the fireplace.

‡ Dakota 42 is approved for installation in screened porches, gazebos and lanais with the following guidelines: Minimum porch area: 96 square feet, Minimum ceiling height: 92 inches, Minimum of two walls must be screened. Minimum top of screen height, side walls: 6 ft. 8 in., Minimum screen area: 64 square feet.

by hearth & home technologies®

Living rooms aren't what they used to be. Outdoor Lifestyles by Hearth & Home Technologies discards the stale notion that "living space" must be contained within the walls of your home. Our innovative products make it easy to extend the living and entertaining space into the backyard, deck or patio. You might even think of it as adding a new room to your house: the outdoor living room.

When it's time to transform your home's outdoor space, think **Outdoor Lifestyles** by **Hearth & Home Technologies**.
